-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Amendment filed 08/12/2004 is acknowledged.

Claims 5-12,18,21-29 are canceled. Claims 1-4,13-17 are currently pending. Claims 1-4 are amended to change recitation from "Therapeutic protein:X" to "Therapeutic protein X" to indicate that the proteins encompassed by the claims are not random proteins (as addressed in the previous Office action) but rather proteins disclosed in Table 1.

Further Restriction Requirement

In view of amendment of the claims to read on proteins of Table 1, the following restriction to one of the following inventions is deemed necessary:

The claims as amended read on a plurality of independent and/or patentably distinct sequences of albumin conjugates of peptides SEQ ID Nos 1-2277 disclosed in Table 1. Each peptide is independent and/or patentably distinct because they are unrelated compounds, there is no disclosed core structure required for a common utility, and because each of these compounds possess different structure and/or physico-chemical properties, and/or capable of separate manufacture and/or use. Examination of the Groups will require different searches of the US Patents and scientific literature and would require consideration of different patentability issues.

Art Unit: 1631

Consequently, the claims as amended are directed to Groups 1-2277 drawn to conjugates of proteins listed in Table 1.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by recognized divergent subject matter, and the necessity for non-coextensive literature searches restriction for examination purposes as indicated is proper.

Examination will be restricted only to a Group drawn to elected sequence.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one

Art Unit: 1631

claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

In addition, applicant is requested to indicate which of the references incorporated by reference (and now listed in Information Disclosure Statement) are related to the elected subject matter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (571) 272-0713. Dr. Borin can normally be reached between the hours of 8:30 A.M. to 5:00 P.M. EST Monday to Friday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Michael Woodward, can be reached on (571) 272-0722.

Any inquiry of a general nature or relating the status of this application should be directed to the Group receptionist whose telephone number is (571) 272-0549.
